Pillow Fight™ Rose

Rosa 'WEKpipogop'

Height: 3 feet

Spread: 3 feet

Sunlight:

Hardiness Zone: 6

Group/Class: Shrub Rose

Description:

An elegant shrub rose, covered in fragrant, fully double white flowers all season; bushy, upright habit; honey tea rose scent; hardy and resistant to disease; all roses need full sun and well-drained soil

Ornamental Features

Pillow Fight Rose is clothed in stunning fragrant fully double white flowers with gold eyes at the ends of the branches from late spring to early fall. The flowers are excellent for cutting. It has dark green deciduous foliage. The glossy oval compound leaves turn an outstanding brick red in the fall.

Landscape Attributes

Pillow Fight Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a high maintenance shrub that will require regular care and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Disease
- Spiny

Pillow Fight Rose is recommended for the following landscape applications;

- Accent
- Mass Planting
- Hedges/Screening
- General Garden Use

Planting & Growing

Pillow Fight Rose will grow to be about 3 feet tall at maturity, with a spread of 3 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid.
